Edge Protection | Tools | PPE | Hoardings

*Your build, made easy*

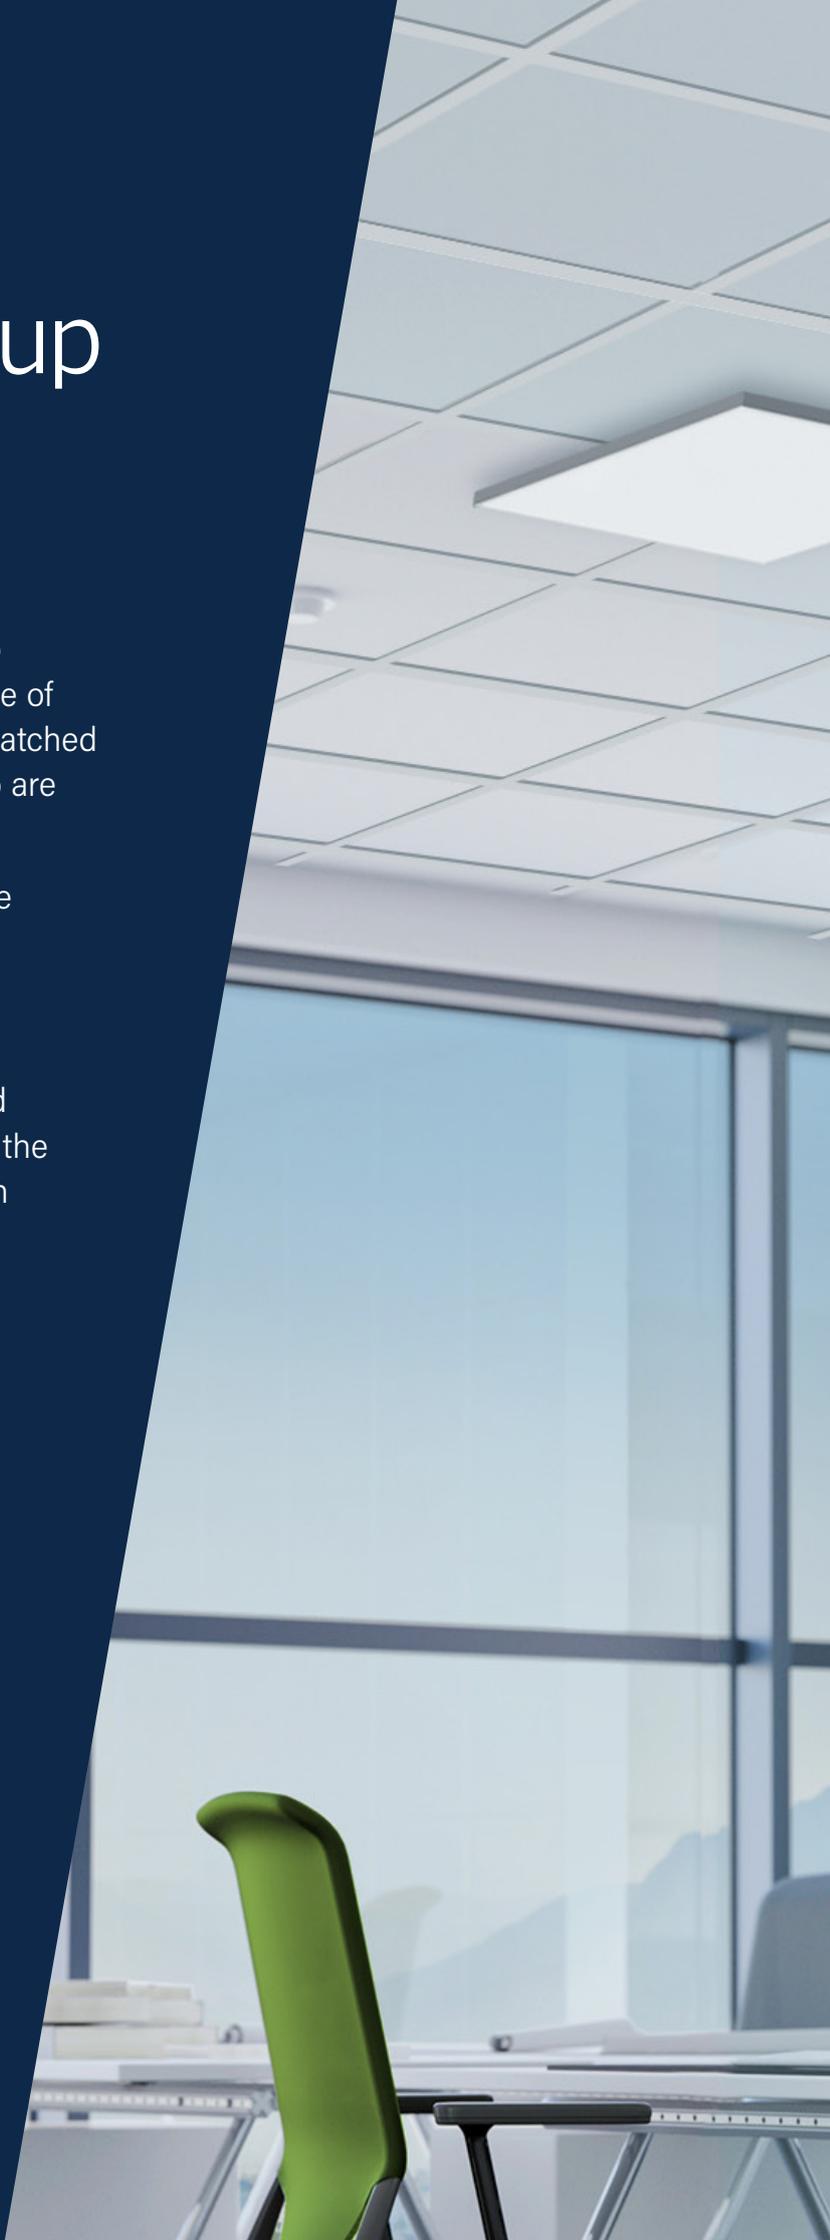

*Your build, made easy*

Trumark Group is the new name you need to remember when you want an extensive range of lining, cladding and construction supplies, matched with a first-class customer service team who are easy to work with.

Serving customers for over 70 years, we were previously known as the Building Materials division of Atkar Group.

Our new name represents a new chapter for our customers. With our team of experienced professionals, our focus is on understanding the individual needs of your build to help shorten your construction journey so you can build quicker, easier & more efficiently.

**With Trumark Group,  
it's your build, made easy.**

# Services

---

## Fibre Cement Cutting Service

With over 30 years' cutting experience, combined with specialised equipment, we offer expert precision cutting and customisation of fibre cement.

## Engineering & Technical Support

Our industry experience allows us to offer our customers more than just products.

Every project has different technical and project requirements and our team can offer advice and support throughout the project.

We can also offer technical and design documents upon application.

## Dedicated Sales Support

Our Sales Support team are committed to making your job easier. From initial enquiry through to final delivery, our team will help you with all your building material requirements.

## Crane Truck

Fully qualified drivers who can crane up to 4 levels (site dependent).

## Flatbed & Hand Load

We can deliver smaller loads fast to your site.

## Pack & Pallet

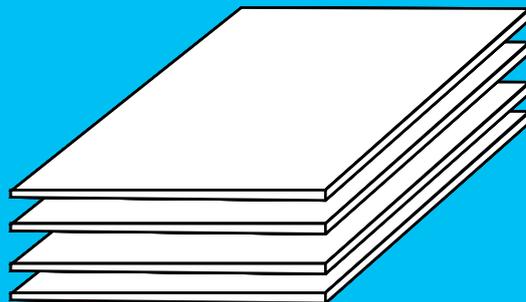

Loads packed and strapped to your requirements.

- Certified crane pallets available

# 1 SHEET PRODUCTS

- 9 PolyFlute
- 10 PolyFlute Rolls
- 11 MDF
- 12 Plywood

# POLYFLUTE™

**POLYFLUTE** polypropylene sheeting designed to protect floors, walls, columns, doors, windows and fragile products / equipment.

## Benefits

- Dual wall – high impact protection
- Easy to fold for vertical surface protection
- Light weight, tough, versatile, waterproof

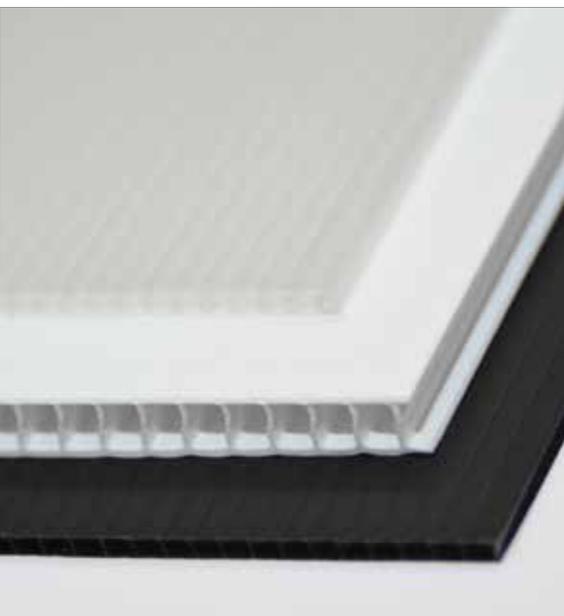

## Uses

- Translucent is often used for window protection.
- Excellent for wet traffic protection and as a sealing membrane
- Easy to cut and form/fold to protect staircases, corners, doors, jambs and windows and protection for kitchen surfaces, vanities and toilets.
- Protective membrane barrier behind retaining walls.

## Application Instructions

- Cut to length and join as required
- Tape joins and edges using appropriate adhesive tape
- PolyFlute cutter and folder tool

# MDFGUARD™

Prefinished and **MDFGUARD** sheets are a cost effective solution for high traffic/impact floor protection. Also used as premium internal barriers or hoarding walls.

## Benefits

- High impact protection from falling objects
- Strong, durable
- Smooth finish , maintains straightness and evenness
- Flame retardant options available
- Very cost effective means of impact protection
- Facing options available
- All sizes and thicknesses available
- Cut to size service available

## Uses

- Effective protection solution for high traffic/heavy impact areas
- Ideal for timber, marble, tiles, vinyl floors
- Excellent buffer for fragile surfaces during heavy activity and demolition
- Internal hoardings in public areas
- For sensitive surface finishes use in conjunction with **SUPAFOAM**
- Temporary pedestrian barrier/hoarding

## Application Instructions

- Tape joints and edges using appropriate adhesive tape

# PLYGUARD: PLYWOOD

**PLYGUARD** Plywood sheeting is the most durable and long-term solution for high traffic and impact floor protection. Used extensively as premium internal and external barriers, block out or hoardings.

## Benefits

- Extra heavy duty long-term impact protection from falling objects
- Spans greater unsupported distances than other timber sheets
- Multi-layers laminated for strength, durable both internally and externally
- Flame retardant options available
- Facing options available (white laminated etc.)
- Other sizes and thicknesses available
- Marine grade also available

## Uses

- The most resilient long-term protection solution for high traffic/heavy impact areas
- Ideal for ramps and walkways
- Excellent buffer for fragile surfaces during heavy activity and demolition
- Internal/external barriers, block out and hoardings
- Temporary pedestrian barrier/hoarding
- For sensitive surface finishes use in conjunction with SupaFoam

## Application Instructions

- Tape joins and edges using appropriate adhesive tape

# 2 FILM & WOVEN PRODUCTS

- 14** Adhesive Film Products
- 19** Plastic Film Products
- 20** Stretch Film
- 22** Woven Products

# SUPATAK™ 200: WINDOW FILM

**SUPATAK 200** is a UV stabilized protection film with a medium/high level of adhesion. It is often used to protect window and frames on construction sites.

## Benefits

- Protects against non-impact scratches, paint and mortar splashes
- Adhesive backed – removes clean, leaves no residue
- Waterproof – can be used externally
- UV Protected – safe for use up to 3 month (Internally/Externally)

## Uses

- Ideal for most smooth surfaces, kitchen units, worktops and glass
- Also used for window and door frame protection
- Not suitable for treated or tinted face of glass

## Application Instructions

- Clean surface prior to use is recommended
  - A test area is always recommended prior to full application
  - Simply rolled out and press into position
  - Avoid stretching film during application
  - Must be removed after maximum of 12 weeks
  - It is the user's responsibility to determine suitability for use.
- If in doubt contact technical services for advice

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG

## WINDOW WRAP FILM

Unique film for letting in light whilst protecting timber, aluminum or UPVC frames and treated glass from soiling and damage.

*We'll organise on-site assistance to solve your protection problems.*

### Uses

- Treated glass windows

### Application Instructions

- May be heat sealed or taped

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
WW32138	Clear Window Wrap Roll	3200mm x 138m	30	35.20

# SUPATAK 500: HARD SURFACE FILM

**SUPATAK 500** is a clear mid tack, hard surface adhesive film with a self-adhesive surface on one face. It has been designed to provide temporary protection on tile, marble, timber and vinyl surfaces. It is easy to roll out over stairs, as a walkway or for complete surface coverage.

## Features / Benefits

- Puncture and tear resistant
- Heavy duty clear film
- Mid Tack adhesive backed – stays securely in place and leaves no residue
- Trip safe – proven to be safe even in public thoroughfares
- Waterproof

## Applications

- Ideal temporary protection for tiles, marble, timber and vinyl surfaces.
- Secure protection for bench tops and low profile protection on timber flooring
- Neat/tight fit against skirting's, columns, and cabinets

## Application Instructions

- Being Reverse rolled , simply roll out by hand or foot and cut to length
- Remove after 4 weeks
- Film applicator, broom, rubber blade or similar can be used to assist in application.
- **A test area is always recommended prior to full application.**

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
ST505101	SupaTak 500 - Clear Mid Tack Film Roll	500mm x 100m	24	5.18
ST510100	SupaTak 500 - Clear Mid Tack Film Roll	1000mm x 100m	24	10.36

# SUPATAK™ 800: CARPET FILM

**SUPATAK 800** is a reverse wound, clear polythene clear film coated with a pressure sensitive adhesive designed to be applied to carpet and textile floor coverings. Its application is intended to provide a protective barrier and help prevent soiling and staining during construction processes. ST800 is slip resistant and allows for accurate marking out for partitioning.

## + Benefits

- Adheres to most common carpet types
- Easy roll out and removal
- Will not creep and wrinkle after application.
- Waterproof
- Puncture and tear resistant
- Trip safe – proven to be safe even in public thoroughfares

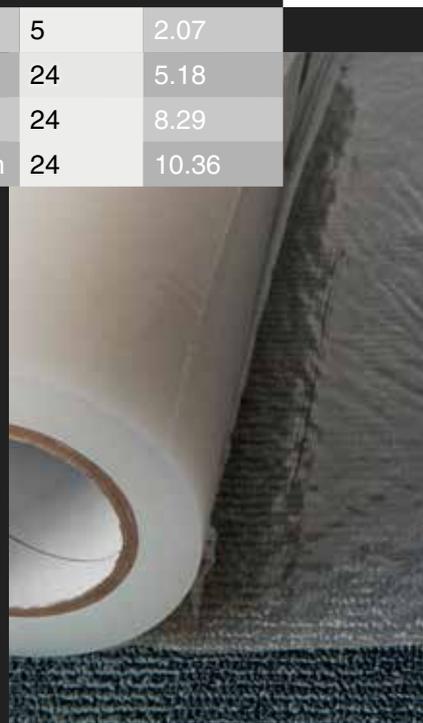

## ✓ Uses

- This product is for applications to carpets, DO NOT use on hard surfaces
- Ideal temporary protection for synthetic and nylon carpet
- Easy to roll out over stairs, for a walkway or for complete surface coverage
- Lays neat and tight against skirting's and around columns
- Ideal for masking or taping edges
- Also used to hold heavier duty protection sheeting in place by providing a low tack surface for the aggressive tapes to be applied

## 📄 Application Instructions

- Adhesion will be reduced on dusty surfaces. Vacuuming prior to application is recommended
- ST800 must be removed after 4 weeks
- Always check ST800 is stuck firmly to carpets before commencing work
- ST800 may not adhere to some carpets treated with “stain-guard” products as they can repel the adhesive
- **A test area is always recommended prior to full application**
- Do not use underfloor heating whilst ST800 is in place
- It is the user's responsibility to determine suitability for use. If in doubt contact technical services for advice
- Being Reverse rolled , simply roll out by hand or foot and cut to length
- A film applicator, broom, rubber blade or similar can be used to assist in application.

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG

ST810100	SupaTak 800 - Clear High Tack Film Roll	1000mm x 100m	24	10.36

# SUPATAK™ FR: FLAME RETARDANT

**SUPATAK FR** is a fire retardant, premium grade embossed clear film, with adhesive backing. It protects carpet and textiles surfaces whilst conforming to stringent fire standards.

## Benefits

- Fire retardant certified to AS/ISO 9239-1-2003
- Puncture and tear resistant
- High Tack carpet adhesive backed – stays securely in place and leaves no residue
- Trip safe – proven to be safe in high traffic areas such as public thoroughfares
- Embossed surface for enhanced slip resistance
- Waterproof

## Uses

- Ideal temporary protection for synthetic and nylon carpet
- Easy to roll out over stairs, and a walkways, or for complete surface coverage

## Application Instructions

- Adhesion will be reduced on dusty surfaces. Vacuuming prior to use is recommended
- **SUPATAK** Film must be removed after 4 weeks
- Always check **SUPATAK** Film is stuck firmly to carpets before commencing work
- **SUPATAK** Film may not adhere to some carpets treated with “stain-guard” products as they can repel the adhesive
- A test area is always recommended prior to full application
- Do not use under floor heating whilst **SUPATAK** Film is in place
- It is the users responsibility to determine suitability for use.  
If in doubt contact our technical services for advice
- Being Reverse rolled, simply roll out by hand or foot and cut to length
- A film applicator, broom, rubber blade or similar can be used to assist in application.

*CAN'T FIND THE SOLUTION YOU NEED?  
Call our consultants for a comprehensive solution!*

# MEGAFILM™ PLASTIC ROLL

**MEGAFILM** is a non-adhesive multi-purpose protection roll of industrial grade polythene.

## Benefits

- 80um – 200um for industrial strength polythene rolls
- Waterproof
- AS Approved concrete underlay
- Durable & versatile
- Clear Sheeting – Allows maximum light & visibility
- Translucent Green – High visibility & privacy whilst allowing light through
- Black – for complete privacy
- Translucent White – low profile – blends with environment and gives privacy whilst allowing light through

## Uses

- Traditionally used as temporary floor protection barrier against spills & wet foot traffic
- Drop sheets & covers, dust barriers, waterproof membranes
- Concrete underlay, asbestos wrapping
- Privacy Screens in conjunction with Zipwall system

*On request we can also provide the following:*

- Anti-Static Film
- Flame Retardant Film
- Food Safe Polythene
- Custom Printed Options
- A range of thicknesses and widths are available to suit varying applications and ceiling heights

# MEGAWEAVE™

**MEGAWEAVE™** is a well proven industrial strength and waterproof poly-weave floor protector roll with an anti-slip coated surface.

## Benefits

- Double laminated polythene weave for industrial strength, durability and tear resistance
- Cost effective and user friendly
- Environmentally sustainable polythene
- Provides protection from heavy activity
- Coated anti-slip surface
- 100% Waterproof

## Uses

- Offers protection during heavy activities
- Ideal for laying over finished floors for protection
- Containment sheeting for the Zipwall dust barrier system
- Can also be used in external applications

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG

# BREATHWEAVE™

**BREATHWEAVE** is a strong dust and water-resistant protector for uncured concrete and carpet laid with water-based adhesive. The breathable protector comes in a roll.

## Benefits

- Breathable allowing moisture to escape
- Easy to use
- Water resistant
- Tough though very soft texture

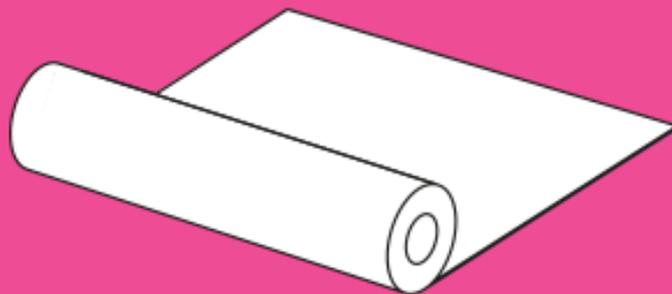

## Uses

- Commonly used to protect uncured (green) concrete
- Used to protect carpet after applying water based adhesives
- Can also be used in external applications
- Soft underlay under board sheet.

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
BW16100	BreathWeave - Blue Breathable Protector Roll	1600mm x 100m	12	19.20

# 3 SOFT ROLL PRODUCTS

- 24 Foam Products
- 26 Bubble Wrap
- 28 Felt Products
- 28 Corrugated Cardboard
- 29 Rubber Rolls

# SUPAFOAM™

**SUPAFOAM™** rolls provide a lightweight, non-abrasive protection for sensitive surfaces and fragile items.

## + Benefits

- Non-abrasive, cushioned foam to protect sensitive surfaces
- Environmentally Sustainable
- Lightweight

## ✓ Uses

- Used to protect sensitive and polished surfaces such as tile, marble, glass surfaces and bench tops
- Can be used as a buffer under PolyFlute & board sheets
- Provides excellent protection for fragile items
- Easy wrap protection around columns and corners

# SUPAFOAM™ FB: FILM BACKED

SOFT ROLL PROD.

**SUPAFOAM FB** is a moisture resistant film laminated to a lightweight, non-abrasive foam. It is a proven solution to prevent possible moisture and water damage to flooring.

## + Benefits

- Non-abrasive, cushioned foam to protect sensitive surfaces
- Moisture resistant film laminated to the foam protector for water protection, added strength and versatility
- Self-adhesive – stays where it is applied
- Lightweight-Easy to use

## ✓ Uses

- Ideal to protect floors from possible moisture and water damage
- Ideal stair protector that requires no taping
- Carpet and hard surface protection

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
SF0212050FB	SupaFoam - 2.0mm White Film-backed Foam Roll	1200mm x 50m	10	5.00
SF0312050FB	SupaFoam - 3.0mm White Film-backed Foam Roll	1200mm x 50m	10	7.15

# SUPAFOAM™ SA: SELF BACKED

**SUPAFOAM SA** is a lightweight, non-abrasive foam protection for sensitive surfaces or fragile items. It is kept in position by a self-adhesive backing.

## + Benefits

- Non-abrasive, cushioned foam to protect sensitive surfaces
- Self-Adhesive backed to keep foam protection in place
- Lightweight-Easy to use

## ✓ Uses

- Ideal for skirting and edge protection where foam must stay in place

# FELTGUARD™ NS: NON-SLIP

**FELTGUARD NS** is easily deployed, universal roll of soft hard wearing felt with waterproof non-slip protective backing.

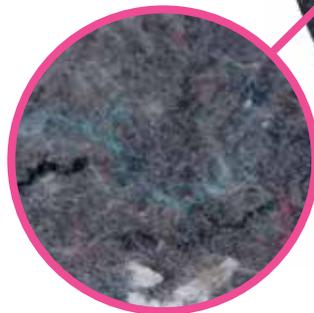

## Benefits

- Environmentally sustainable felt
- Non-slip plastic backing
- Soft though safe protection
- Absorbent & re-usable
- Waterproof
- Quickly deployed

## Uses

- Effective waterproof non-slip protection for stairs
- Commonly used as surface protection, drop sheets, furniture protection and transport
- Soft protection for almost any surface

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
FGNS015040	FeltGuard NS - Non-Slip Backed Felt Roll	1500mm x 40m	15	18.00

# FELTGUARD™ FF: FURNITURE FELT

**FELTGUARD FF** is a hard wearing felt fabric, which is easily deployed and cost effective.

## Benefits

- Hard wearing
- Environmentally friendly
- Re-usable
- Reinforced durable design to withstand harsh long term usage
- Machine washable
- Quickly deployed

## Uses

- Commonly used as surface protection, drop sheets, furniture protection and transport
- Soft protection for almost any surface

CCP021	Cardboard Corner Protector	2100mm	50	0.11

# POLYFLUTE™ CORNER PROTECTOR

**POLYFLUTE** corner for, tough waterproof.

## Benefits

- Dual wall – excellent impact protection
- Tough, versatile
- Waterproof

## Application

- Effective protection for doors, windows, paneling & other finished surfaces

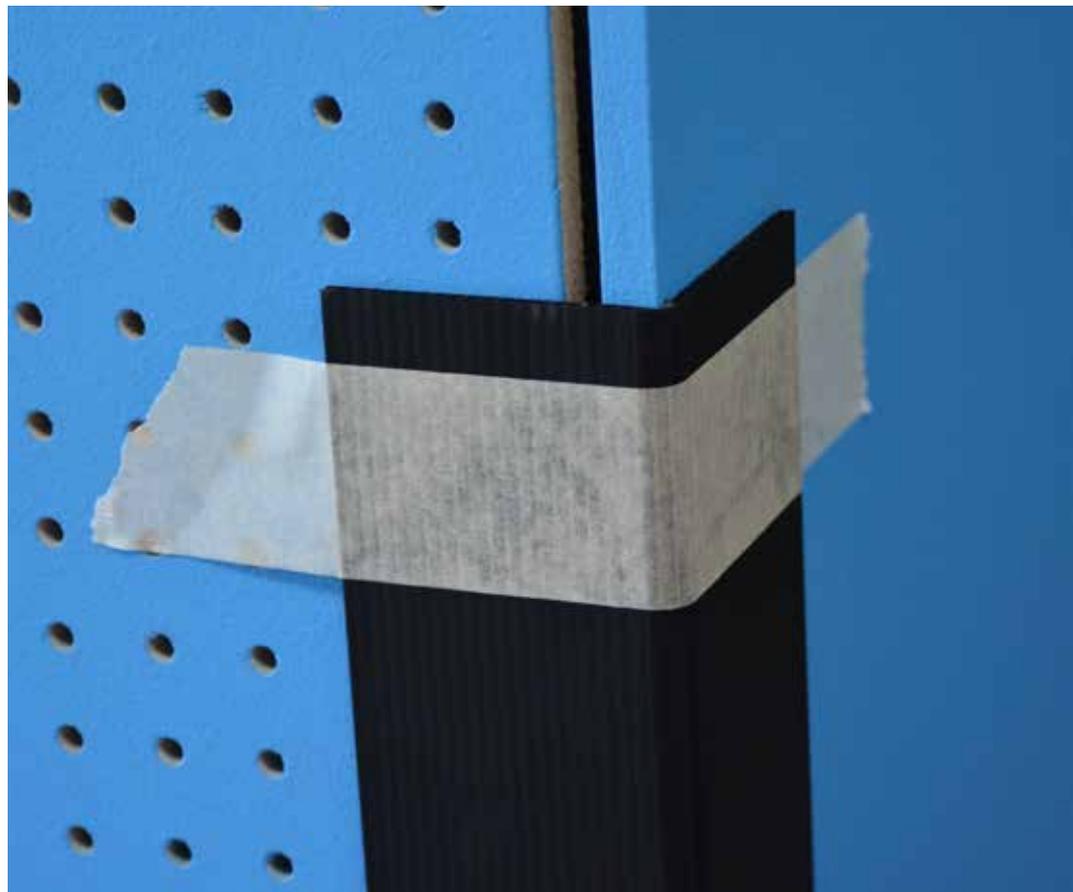

## Application Instructions

- Cut to size, cut around door handles & other protrusions
- Tape joins and edges using appropriate adhesive tape

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
PFCP20	PolyFlute – 2.0mm Black Corner Protector	2000mm	50	0.11

# STAIR TREAD PROTECTORS

**POLYFLUTE** tread protectors for tough protection.

## Benefits

- Dual wall – excellent impact protection
- Quick assembly
- Light weight – Easy to use
- Tough, versatile
- Waterproof

## Uses

- Stair treads, nosing's & risers
- Custom sizes available

# CUSTOM PROTECTION

Customise products to suit your needs.

## Benefits

- Custom Printing – Economy printing through to full color lithographic printing
- Custom Shapes - Rapid slot together, pre-cut & creased **POLYFLUTE** assemblies to protect toilets, cisterns, baths etc.

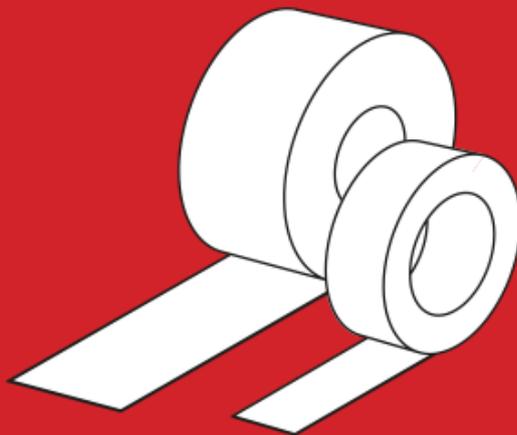

# 5 ADHESIVE TAPES

**36**    Joining Tapes

**38**    Protection Tapes

**39**    Masking Tape

# GRIPSTICK™ CORNER PROTECTOR

Heavy Duty clear tape with excellent adhesion for joining protective sheeting

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
CJT48	GripStik - Clear Joining Tape	48mm x 75m	36	0.20
CJT72	GripStik - Clear Joining Tape	72mm x 75m	24	0.24

ST202100	SupaTak 200 - Blue Low-Tack Window Film Roll	150mm x 100m	6	2.04

## GRIPSTICK™ CUSTOM PRINTED

Premium tape, custom printed with your logo.  
Enquire for more info: [enquiries@atkar.com.au](mailto:enquiries@atkar.com.au)

# GRIPSTICK™ ALUMINIUM PROTECTION TAPE

Adhesive PVC tape to protect and mask both aluminium and steel frames for cutting in.

## + Benefits

- Heavy duty PVC helps prevent scratches, staining of anodised, powder coated & polished frames/surfaces
- Adhesive backed – removes clean, leaves no residue

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
BAPT48	GripStik - Black Aluminium Protection Tape	48mm x 66m	36	0.30
BAPT96	GripStik - Black Aluminium Protection Tape	96mm x 66m	18	0.60
BAPT230	GripStik - Black Aluminium Protection Tape	230mm x 66m	8	2.87

# GRIPSTICK™ BLUE 14-DAY MASKING TAPE

Low tack masking, sealing and joining tape for sensitive applications. Peels off up to 14 days after applying to most surfaces with no residue.

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
BMT24	GripStik - Blue Masking Tape	24mm x 50m	36	0.20
BMT48	GripStik - Blue Masking Tape	48mm x 50m	24	0.40

# GRIPSTICK™ GENERAL PURPOSE MASKING TAPE

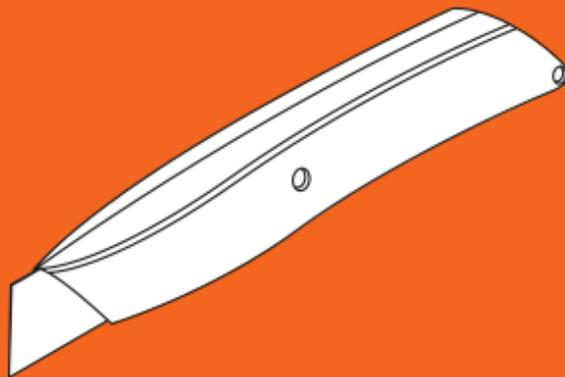

Ideal tape for sealing, joining and short term masking applications

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
MT24	GripStik - Masking Tape	24mm x 50m	36	0.20
MT48	GripStik - Masking Tape	48mm x 50m	24	0.20

# 6 TOOLS

**41**     Applicators & Dispensers

**43**     Cutting Tools

## FLOOR FILM APPLICATOR

Ideal applicator for applying 800mm – 1000mm rolls of TakFilm over large areas, speeding up the process dramatically with less strain. The bonding of **SUPATAK** Rolls is enhanced which leaves a neat smooth finish to the film.

### Benefits

- Allows one operator to use larger rolls with less strain
- More effective bond leaving a neat, smooth finish to the film
- Quick and easy set up
- Enables fast and efficient application

### Application Instructions

- Ensure all applicator fixings are tight and installed correctly
- Ensure core plugs have been inserted into the **SUPATAK** Rolls
- Protection film is applied in forward motion, ensure film runs underneath the bottom steel roller

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
FAP12	SupaTak - Film Applicator suites rolls up to 1000mm wide		1	4

# SUPATAK™ WINDOW FILM APPLICATOR

Ideal applicator for applying **SUPATAK** Window Film, speeding up the process dramatically with less strain.

## Benefits

- Allows one operator to use both hands to apply the film
- Quick and easy set up
- Enables fast and efficient application

## Application Instructions

- Simply insert the roll into the applicator and apply

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
FAP06	SupaTak -Window Film Applicator suites rolls up to 610mm wide	1	1	2.34

## DISPENSERS

Dispensers are available in a range of sizes and varieties to suit most tapes. Stand-up applicators for films & tapes are also offered. Enquire for more details.

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
BFD01	Bundle Wrap Dispenser		1	0.30
SFD5	Stretch Wrap Dispenser		1	1.03
TDPG50	WorkShield - Tape Dispenser (suites 76mm core x 50mm)		1	0.60

# POLYFLUTE™ CUTTER & SPLICER

Unique, safe **POLYFLUTE** cutter with twin cutting functionality for clean cuts or splices for quick and accurate folding.

## Benefits

- Twin cutting functionality for clean cuts or splices for quick and accurate folding
- Cuts up to 5mm PolyFlute
- Ultra-safe
- Easy to use

## Uses

- Used for clean cutting sheets and splicing sheets for quick and accurate folding

PART NUMBER	DESCRIPTION	DIMENSIONS MM	PACK QTY	APPROX MASS KG
PFC005	5mm PolyFlute - Cutter & Splicer Tool		1	0.15

# WORKSHIELD™ UTILITY KNIVES

BT75100RW	WorkShield - Red/White Barrier Tape	75mm x 100m	20	-

# ZONEFX:<sup>TM</sup> HOARDING AND SITE SEGREGATION

**ZONEFX** – PVC Hoarding Solutions

### Features/Benefits

- Light weight and easy to install
- Easily cut to size/shape
- Reusable/relocatable
- Clean pre-finished surface
- Space saver
- Durable and weatherproof
- Broad range of accessories; inc Single/Double Doors and Windows and cold room panel.

### Common applications

- Cutting rooms
- Site offices/amenities
- Office partitioning
- Transportable buildings
- Food processing areas
- Hoardings for offices and high traffic areas; Airports, Shopping Centres, Schools,...

\*Coolroom panel, MDF and Plywood(CD, Structural, Black Film Faced) available - *enquire for more details!*

\*Fire Rated and Australian Hoarding Standard(AS4687-200) requirements - *call now to discuss you application!*

# ZONEFX™ 300: FIXED PVC HOARDING SOLUTION

**ZONEFX 300** is a reusable tongue and groove PVC panel system, designed to facilitate complete segregation of work areas. Ease of installation is made possible through lightweight 300mm wide panels, innovative fixing systems and accessories.

## Key attributes:

- Satin off-white grooved finish
- Requires top and base track fixing/supporting
- Fully sealed/enclosed solution
- Tongue & Groove Panels
- Can be used as a ceiling

## System Notes:

- 300mm Wide x 30mm Thick Tongue & Groove PVC Panel
- Standard Lengths 2400mm, 2700mm, 3000mm
- Custom lengths <6000mm
- Panel Weight approx 6kg/m<sup>2</sup>
- Single/Double doors and windows available
- Broad range of track profiles

Easy fit tongue and groove join for fast installation and demounting. Pre-finished 300mm wide x 30mm thick pvc panels. (stocked lengths in selected increments from 2.4m to 6m.)

Install walls and ceilings with the greatest of ease.

Single/double door units and window options.

# ZONEFX™ 1200: FREE STANDING PVC HOARDING SOLUTION

**ZONEFX 1200** is a high gloss reusable PVC panel system designed to create a premium robust free standing hoarding solution. Speed of installation is made possible through its 1200mm wide panels, which interlock into a free standing support system.

*Use in conjunction with Zipwall® for complete dust containment*

## Key attributes:

- Freestanding
- Maneuverability
- No fixings required
- Corporate, clean line gloss white finish
- Thick robust panel

## System Notes:

- 1200mm Wide x 35mm thick robust PVC Panel
- Standard Lengths 2250mm, 2400mm, 2700mm, 3000mm
- Custom lengths <3000mm
- System includes tracking and supports (9kg Posts, 14kg Weights)
- Panel weight approx 6kg/m<sup>2</sup>
- Single/Double doors available
- Broad range of accessories available
- For complete dust containment use in conjunction with Zipwall kits

# TAKMAT™

**TAKMAT** are trip safe tacky entrance mats for containing contamination, and preventing dust and dry debris from gaining entrance into sterile and clean environments.

## Benefits

- 30 layered pressure sensitive polyethylene tacky sheets
- Removes & contains dry contamination from footwear
- Trip safe – low profile
- Reduces cleanup time and damage risk
- Enhances your professional image

## Uses

- Commonly used under doors - low profile
- Ideal to prevent dust & dry debris being walked/tracked/wheeled into a clean area/finished floors, etc.
- Used extensively for computer rooms, hospitals, labs, shops, offices and homes, etc.

## Application Instructions

- Remove the backing layer and stick to floor
- Peel/dispose each layer when fully soiled leaving a new layer ready for use
